Ajnur Radovic

Self-Taught Front-end Developer

Hello, Ajnur Radovic here. I am a Self-taught Junior Front-End Developer. From the moment I have produced "Hello World" in the console of my first application, I was hooked in the world of Web Development. But Web development has never been "just a hobby" for me, it's offered an engaging challenge to continually learn and improve my skills in creating quality web applications. I started learning how to code through FreeCodeCamp and CodeAcademy. In the FreeCodeCamp I have spent quite some time, where I have achieved Responsive Web Design, JavaScript Algorithms, Data structures, and Front-end Libraries Certifications. Then I went to learn React because at the moment I think is very crucial in Front-end development. If I met your job requirements feel free to drop me an Email. Kind regards Ajnur

EDUCATION

High School
Electrical Engineering
09/2011 - 12/2015

WORK EXPERIENCE

HR at the Supermarket
BINGO
08/2019 - 08/2020
Achievements/Tasks

- I was an HR at the Supermarket. If I can call it like that. My job to know what items have been sold, what groceries are close to the expiry date, so I can put them on sale, etc. I did interview people once. The work was enjoyable unfortunately got laid off due to Covid. That's when I got myself to learn to code

SKILLS

JavaScript   HTML   React   CSS

Material-UI   Tailwind
